SUBMIT RECEIPTS
AND UTILITY
REBATES WITH
TAX PAPERWORK

30% OF TOTAL INSTALLATION COST WILL BE DEDUCTED FROM FEDERAL INCOME TAX OWED

For a \$15k installation, your rebate would be \$4,500.

FREQUENTLY ASKED QUESTIONS

Do I have to own the property and does it have to be in the U.S.?

Yes, but you can be a tenantshareholder or condo member.

Do panels need to be installed on my roof?

No, they just have to be installed on the property.

Can I apply if I financed the installation and equipment?

Of course!

Do renewable energy certificates or state tax credits and rebates get deducted?

No, they don't.

Do I have to be connected to the grid?

Nope! You can be off-grid too.

Can I get the credit for installing new battery storage to my existing solar installation?

Yes, batteries count too!
